It is the social event of the season and all the finest are out in colour. Light-hued dresses and dark tuxedos stand toe to toe at the entrance. They've come not for appearances, but in anticipation of the show they're about to see.

#### **RED CARPET COLLECTION**

Rich. Unexpected. Luxurious.

Red Carpet's three patterns offer a range of exceptional luxury. The collection brings together 3 different kinds of luxury.

#### **REDUCE**

is a contemporary linear pattern. Smooth and uncluttered it is simply elegance at its purest.

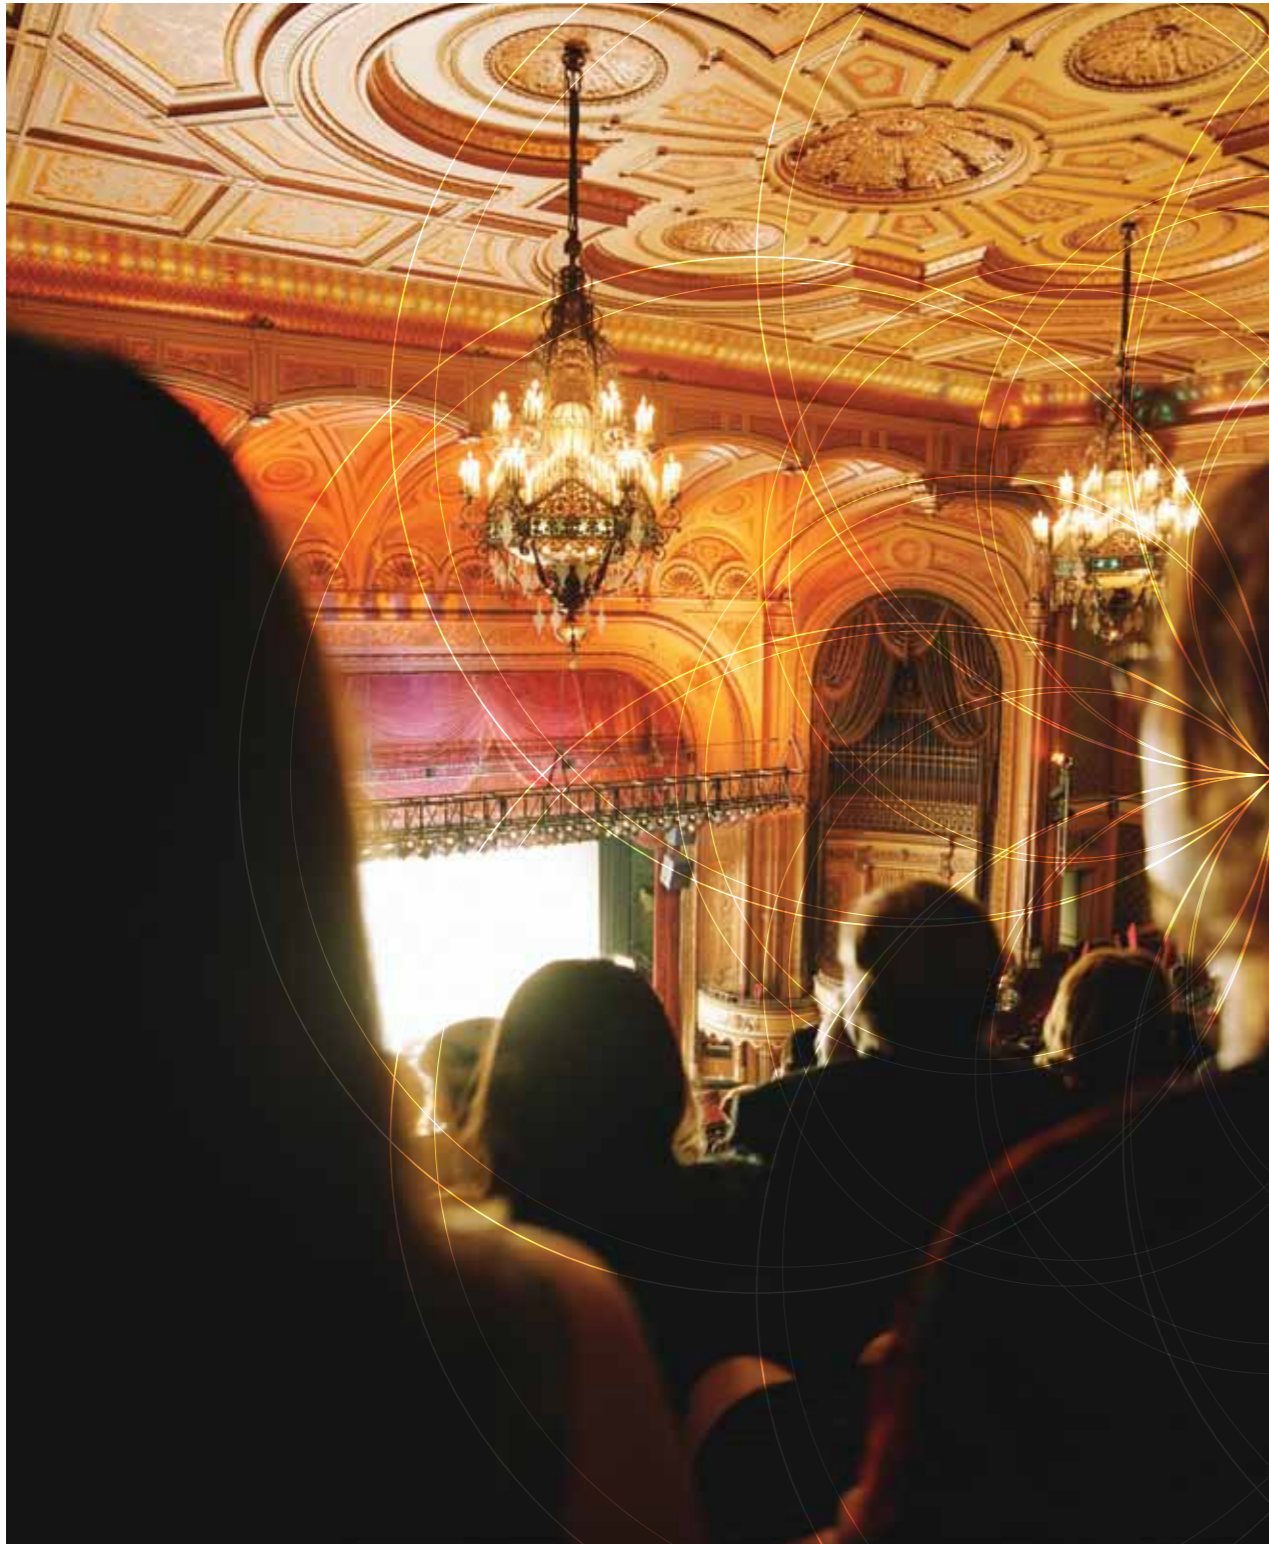

#### **REDESIGN**

is visually deep with a sheared finish. Strong definition is balanced beautifully as light dances on the surface.

#### **REDELIVER**

is rich and carved. Its dramatised highlights and lowlights create pure unapologetic class.

Each of these distinct patterns is available in a palette of 28 colourways. Giving you a selection of iconic fashion neutrals – warm and cool hues of classic camels, greys and navy. Then add a stroke of true drama to your setting with lush, vivacious red.

The Red Carpet Collection builds environments of style and glamour. Neutral tones create a graceful base to evoke the subtle details of iconic luxury. Elegant spaces are then quickly infused with a vibrant unpredictability found in the plush depths of blues, blacks and the lead red.
